Eric,

We need the FPM model spreadsheets in order to review the model (see below). Let me know how you would like to proceed.

Jennifer,
I assume you or Eric will make that request?
Jay

PETERSON Jenn L wrote:

Jay,

This looks like just a summary of the model, and the reliability parameters. However, we will need the original FPM spreadsheets from the model as was requested last time by Mike Anderson. That is the only way we can review the model. We should request those now so we can begin looking at them, or if they are not amendable to that they at least need to be submitted as a part of the Round 2 report.

Jennifer,
This is the file that I received---does it have the info you're looking for? It took an official LWG request to get this file...

Jay,

Do we have her actual spreadsheets?

Bob,
Here's the most recent version of Teresa's floating
point models that
LWG provided.
Jay
